Skills

Problem Solving, Critical Thinking, Attention to Detail, SQL, MS Word, MS Access, MS PowerPoint, MS Project, Photoshop, Dreamweaver, Illustrator, Autodesk Maya, Cyber Security, XAMPP, HTML, HTML5, CSS, JavaScript, PHP, Python, Ruby, Ruby on Rails, Java, C++, Public Speaking, Sketching, Wire Framing, Story Boarding, User Interface Design, UX Design, Painting, Digital Art, Human Resources, Team Management, IT Management, Speed Reading, and Repelling from helicopters

Experience

Bite Squad, Columbia, SC
Delivery Driver   (10/2019)-Present

Exercise a fair amount of critical thinking, problem solving, and navigation skills, while delivering food for various different restaurants. Performed all duties with minimal supervision. This job is controlled primarily by a phone application, so some troubleshooting is often involved.

University of South Carolina, Columbia, SC
Student   (08/2011)-(12/2017)

I know this does not quite count as a job but in order to get the best out of my education I gave my full time and attention to my studies. This was made possible by support from Veterans Affairs and my wife.
I obtained training in: Project management, UX design and development, Java, Html, Adobe Dreamweaver, Human Resources, Team management, Cyber Security, Public Speaking, and Most of the Microsoft Office Suite products (listed below).
While this is about a 7 year gap in my employment, I still gained a large amount of training, experience, and skills. All worth mentioning.

Education

Bachelor of Art in Interdisciplinary Studies,
Focused in Integrated Information Technologies and Management,
University of South Carolina, Columbia, SC

(Go Gamecocks)
Graduated December 2017
